Got it.

Kindly include Yvonne Addassi and Paul Hamilton at OSPR in correspondence.

Paul

Thanks very much! We'll get a room lined up at CalEPA and circulate a calendar invitation tomorrow.

Hope everyone is having a great weekend.

Best,

Ana

Tuesday 6/21 1-3 pm, OK.

I am adding Tabetha Willmon from ARB to the cc:, based on her experiences in the Disaster Recovery Operations Centers following the Butte and Valley fires.

Regards,

Paul

Dan,

Thanks very much to you and all your colleagues at Region 9 for hosting us yesterday. Appreciate you sending this follow up message to make sure we're connected with Paul and team.

Paul,

I'm including Zoe Bayar here, who joined the Department three weeks ago as the Assistant Deputy Director of our cleanup program, and overall project manager on Exide. We'd be very happy to get your expert advice and feedback on the structure under development. Might you be available to meet with me, Zoe, and team this coming Tuesday 6/21 between 1 and 3pm?

Many thanks,

Ana

Greetings Ana et al,

Both CalEPA and OSPR stand ready, as needed and desired, to assist the development of an Incident Command System compatible organizational structure to support the Exide effort.

Please contact me to discuss further.

Regards,

Paul

Hi Ana – nice to see you again today.

One thought occurred to me regarding the action item to socialize the two organizational structures that were discussed today. DTSC and Cal/EPA have formed an interagency group, the ERMAC, that may be of use to the Exide effort. The Emergency Response Multi-Agency Coordination Group (ERMAC) consists of a number of BDOs and other California agencies, some of whom have deep experience with ICS and might be able to help with putting a structure together that meeting the management and policy objectives.

I am ccing Paul Penn on this email as Paul has been a key voice on the ERMAC for a number of years. So you might want to check in with Paul as you think about what structure will best serve all of the needs.

Best regards, Dan Meer
